

MR. CALVERT AMONG THE SCHOOLMASTERS.—We notice in the Boston Journal that our fellow citizen Mr. George H. Calvert has been lecturing before the American Institute at Manchester, N. H. As usual, he produced quite a sensation. Some of the ideas which he advanced were the theme of much debate afterwards. One teacher pronounced them transcendental, another said they were contrary to Scripture, and a third declared they could not possibly be carried into practice. One person however came to the rescue, and defended Mr. C. in gallant style.

This is all very well. It will do the members of the Institute no harm to be waked up now and then by an original thinker and bold speaker. Aside from the merits of the question, which we shall not undertake to discuss, it is a good thing to set a thinking, on any subject. As Wendell Phillips says, the true scholar is of necessity an agitator.

The leading democrats at the South continue to utter threats of disunion. "If the general government will not aid southern lines of steamships, we will dissolve the union." "If Mr. Buchanan does not recall Walker from Kansas, we will quit the Union," &c. &c.

We suggest that the Hon. Edward Everett be sent out as a missionary among these turbulent fellows. If the eloquent peroration of his lecture on Washington, portraying as it did, with a masterly hand, the absurdities of perils of disunion, does not quiet them, nothing can.

NONE SO BLIND AS THOSE WHO WILL NOT SEE.—Not counting California: four northern states only, cast their votes at the last Presidential election for Mr. Buchanan, and none of them by a majority of all the votes cast. These were:

Pennsylvania,	Plural:	82,000
New Jersey,	"	18,400
Indiana,	"	14,000
Illinois,	"	8,000

Leave out the Romish vote and Buchanan would not have carried either of these states.

The facilities for colonizing New Jersey for electioneering purposes, are too obvious to be alluded to. More than two thirds of all the lines of rail road, made in the whole United States for the year previous to the election was comprised within the limits of the three other states named, which offered every facility that could be desired by the secret plotters for the destruction of this Union. On political errands unknown to themselves, tens of thousands of the blind adherents within their several borders prepared to do the bidding of their ghostly directors at the Polls.

This is the influence that has created our two last Presidents—and this is the influence that will elect the next, should we survive as a republic so long.

How different might have been the result, could the people, both at the north and the south, have possessed sufficient knowledge and penetration to discern the snare, that was set for them by the wily Jesuits, in instigating the repeal of the Missouri Compromise, and thereby creating a sectional division in the Union, that has placed it, through the means of the balance of power, they now hold in their hands, completely within their control, and which they will doubtless, through their secret machinations and influences, continue to hold.

With so powerful and discordant an element within our borders, distracted and divided among ourselves, in vain will the country in future look for internal peace.

Had wisdom and prudence controlled the measures of the American party, instead of folly and madness, Millard Fillmore whose only fault was like that of Aristides in being too honest and just to please dishonest men, would have been elected by an almost unanimous vote. In such an event is there a man of ordinary sagacity in the whole country who can disbelieve that our national councils would have been instituted and conducted on a broad and constitutional basis that would have insured the peace and harmony of the whole country?

OBSERVER.

George Peabody arrived in New York on Tuesday, and sailed the next day for England in the Persia. Since his arrival in this country, nearly a year since, says the Evening Post, Mr. Peabody has, in spite of repeated attacks of painful illness, found time to visit twenty-six States of the Union, in each of which he was warmly greeted; and while adding to his own fortunes by sagacious monetary operations, has increased the obligations of his countrymen to him by an outlay of not less than half a million for the establishment of popular literary and charitable institutions. We understand that it is Mr. Peabody's intention, if his health permit, to return to this country three years hence, when he hopes to escape the friendly ovations which have somewhat interfered with the plan of his visit and the freedom of his movements.—Boston Trav.

Brown is a married man. A few days since he thought of taking a trip to Paris. One of his friends meeting him in the street, inquired—"Well Brown, my boy, when are you off?" "To-morrow." "Do you take your pleasure with you?" "No! it is a voyage of business."

LOCAL NEWS.

We take pleasure in announcing that the Annual "Benefit Concert and Soiree Dansante" of the German Musical Society is to be given on Monday evening at Ocean Hall. These entertainments have become one of the attractions at Newport during the fashionable season, and are always looked forward to with pleasure, especially by our wealthy and fashionable visitors.

We know of no more fitting entertainment than this to take the place of the annual Fancy Ball which formerly caused so much excitement and emulation in the fashionable world, and think much credit is due to the Germanians for their endeavors to make everything pass off pleasantly.

We learn that the steamer Canonic will leave Newport on Tuesday next, the 25th, if not stormy, in which case, on Friday 28th at 9 o'clock a.m., for Block Island, and that the Dedication of the new Baptist Meeting-house, is appointed at 12 noon, on the day of the arrival of the steamer. Fare for the excursion, returning same evening at six, is but 50 cents.

We understand that the steamer Clifton will make an excursion from Providence to this city to-day. It is expected that she will be crowded with persons who visit in order to be present at the Fair of St. Mary's church, which is now being held at Aquidneck Hall. We understand the Fair is doing well. It presents unusual attractions to visitors.

The fort presented an unusually lively appearance on Thursday afternoon. It was thronged with carriages, which were filled with our citizens and visitors all of whom seemed highly delighted with the exhilarating drive and the animating music of the Germanians.

Right Rev. Bishop Clark will hold an ordination at Trinity Church, on Sunday morning, on which occasion Mr. W. C. Leverett, of this city, will be admitted to the holy order of Deacons. Bishop Clark will preach a sermon appropriate to the occasion.

The Rev. Mr. Oroutt, one of the Secretaries of the American Colonization Society, will deliver a discourse in the Unitarian Church to-morrow, (Sunday,) afternoon, on the subject of AFRICAN COLONIZATION. Service to commence at 4 o'clock.

We take pleasure in announcing the arrival at the Fillmore House of the following distinguished guests:—The Earl of Listowel, Colonel the Hon. W. Scarlett, and Capt. Tower.

Rev. Mr. Bancroft of St. Johns Church Providence, is expected to preach in Zion Church to-morrow morning, and Bishop Clark in the evening, at 8 o'clock.

Rev. Dr. Morton, of St. James Church, Philadelphia, will preach in Emanuel Church, in this city, on Sunday morning.

One Bradford set up a Printing-press, and became printer to the Colony, March 22nd, 1709. R. I. Records.

We hear that the Rev. Geo. B. Ide, D. D., of Springfield, Mass., will preach to-morrow at the Second Baptist Church.

Rev. Dr. Boardman, of Philadelphia, will preach to-morrow afternoon at the Congregational Church.

ADVICE TO SEA BATHERS.—It should rarely be practiced more than once a day, and then but for a few moments; to prolong the period is not only to prevent a realization of the anticipated benefits, but to invite languor, weakness, headache, and other unpleasant sensations and effects, the very reverse of which were hoped for. In the case of invalids, the first trials of sea bathing should consist in little more than a expeditious entrance into the sea, a single complete immersion, and a speedy return to the dressing house, where, at once, before attiring themselves, an assistant should be at hand, as is the practice in Europe, to give the bather the benefit not only of a thorough drying, but also friction of the entire surface of the body, especially of the back and lower limbs. It will be advisable to allow a day to elapse, after that in which the first bathing was practised before trying a second. The period may be prolonged, in this case, two or three minutes, but the whole process ought to be completed in five minutes.

For valetudinarians, in general, ten minutes must be considered an ample allowance which ought not to be exceeded; and even the robust and healthy would do well to content themselves with fifteen or twenty minutes as a maximum period. Invalids can seldom bathe with advantage more than once a day. The best time is towards noon, so as to allow a sufficient period for the digestion of the morning meal to be in a good measure completed. They who awake in the morning with a feeling of heat and thirst, and with a dry skin, and whose system reacts readily after a cold bath, may go into the sea for a few minutes before breakfast. Bathing in the evening is always of doubtful propriety, and ought not to be indulged in without specific instructions and supervision on the part of a physician. Never is it proper, but on the contrary always mischievous after supper, or any substantial meal or luncheon. Late dancing or late hours in any way, and sea bathing are incompatible with each other. If the latter be resorted to as a remedy for an ailment, its efficacy will, in a great measure, depend on the person who has a recourse to it retiring to bed at an early hour.—Doct. Bee.

GENERAL NEWS.

MANUFACTURE OF COMBS.—It is said that the greatest comb manufactory in the world, is in Aberdeen Scotland. There are thirty-six furnaces for preparing horns and tortoise shell for the combs, and no less than one hundred and twenty iron screw presses are continually going in stamping them. Steam power is employed to cut the combs. The coarse combs are stamped or cut out—two being cut in one piece at a time. The fine dressing combs, and all small tooth combs, are cut by fine circular saws, some so fine as to cut forty teeth in the space of one inch, and they revolve five thousand times in one minute.—There are some two thousand varieties of combs made, and the aggregate number produced of all these different sort of combs, is about 9,000,000 annually; a quantity that if laid together lengthways, would extend about seven hundred miles. The annual consumption of horns amounts to 4,000,000; the consumption of tortoise shell and buffalo horn, although not so large, is correspondingly valuable. A hoof undergoes eleven distinct operations before it becomes a finished comb.

THE GOODWOOD RACE.—We continue to receive confirmation of the impression that the American horses were badly ridden. The London Star says:

"We have no hesitation in stating, however, that if the American horses had been ridden by English jockeys, they would have been much nearer the winner at the finish. Indeed, at the distance, Prioresse looked quite formidable, and her success appeared to be within the range of possibility. Her rider, however, sat bolt upright upon her, and held her in a manner which would have excited suspicion had an English jockey adopted the same style of riding. The 'Americans,' in fact, seemed ignorant of 'nursing' and easing their horses, and of making those finishes which impart something artistic to the profession of an English jockey. Prioresse, too, was nearly going the wrong course, and the rider did not discover the mistake until the lead had been taken from him, and he saw the horses bending away to his right. After their performance at Goodwood, however, the pretensions of the American horses will be no longer disparaged."

RAILWAY INVENTION.—Several attempts have been made to render the superstructure of railroads permanent and durable. The most successful attempt of this kind, that we know of, has just been made on the track of the Erie Railroad, about twelve miles west of Jersey City, where an iron superstructure, or roadway, has been made, and the heavy trains of the road are now daily passing over it. The peculiarities of this structure are worth noting, as they promise to inaugurate a new era in the history of railroads. It is composed entirely of cast iron, and includes everything pertaining to the roadway, except the rails. It requires no bolts or spikes of any kind; and we are informed that it may be taken from the furnace and adjusted upon the road, with less labor and expense than is usually required to lay the ordinary wooden sleepers. This iron casting is embedded in the ground on stone, or a similar solid foundation, where it is secure from frost and other disturbing causes. The rails rest on India Rubber springs, which deaden the noise of a train, and at the same time ease off those heavy blows and shocks of the engines and cars while running, thus diminishing their wear and tear.—N. Y. Times.

KANSAS.—The Missouri Democrat of the 15th inst., says:

"We have dates from Kansas up to Tuesday morning. The deputy marshal of Douglas county was on his way to Lawrence with upwards of fifty warrants in his pocket for the arrest of the most prominent of the Free State men there. No resistance was contemplated. It is evident, however, that a new era is about to be inaugurated. Possibly it will be distinguished as one preeminently disastrous to the Territory and the Union. The policy that this movement indicates forebodes no good, either to the settlers or the country. It is the desperate struggle of a corrupt politician to extricate himself from a self-begotten difficulty."

THE GREAT EASTERN.—It is stated by a contemporary that the Chairman, Directors and Secretary of the Great Eastern Steam Navigation Company, accompanied by her commander, Captain Harrison, are to visit Liverpool to-morrow, and from thence proceed to Holyhead, to make arrangements for the first voyage of the Great Eastern to Portland. The movements of the managers of this ship of late remind one of the family portrait in the Vicar of Wakefield, which was so large that it could not be got into the house. Here we have a ship which the owners do not know what to do with. They fancy she is too big to get into any working port, and they visit Holyhead, Milford Haven, and every out-of-the-way port, to find accommodation.—Liverpool Courier 5th.

THE SUBMARINE CABLE. It is the opinion of Capt. Perry of the steamship Columbia, at New York from Liverpool, that the squadron which was to lay the trans-Atlantic telegraph cable did not venture out at the time appointed on account of bad weather. He passed Cape Clear at 1 a.m. of the 6th, at which time the wind was blowing strong from the westward. From that time until the 16th Capt. Perry experienced a strong head wind and rough sea, which must have operated very unfavorably for laying the cable. The Arabia, from Liverpool 8th, now nearly due, will probably bring some definite information as to the progress which has been made.—Boston Journal.

Henry Ward Beecher is said to be a patron-spirit of boys. The boys of Brooklyn, it is said, would all make him the President of the United States to-morrow, if it depended on their vote. He saves them from the police—he pays their fines when they break windows—he tells them he used to like to do it himself. The evening before the fourth of July, the usual Plymouth Church prayer meeting was somewhat disturbed by the firing of crackers in the entry and under the windows. Most ministers would have put on a very solemn look and given peremptory orders to drive away the boys; but Beecher smiled and said, "That's somewhat annoying to us, but I presume the boys enjoy it; indeed I remember a time when I used to enjoy such things myself."

Within the borders of the United States are 80,000 school houses, 5000 academies, 334 colleges, and 3800 churches.

PAT'S ENCOUNTER WITH A HOGNET'S NEST.—As I was a mowin' of a mornin'; just a while since, on the marsh forns the wood, and I seed a big beautiful bird's nest on a bush; and I nixed Mr. Davis what kind of a bird's nest it was, an he told me, bad luck to him, 'twas a humbird's nest; an I went up an' peep't into it, but not a bird could I see, nor a bit of a place for her to lay; and then Mr. Davis told me to shake the bush and the bird would come out; and I shook it, shure, but instead of a bird out came a thousand, ten thousand, ooh, a million of the big green hands, an they flew into my eyes an' into my hair, an' into my mouth, be jabers, an they bit me till surely I thought I was dead jist; an I screamed an I run—ooh, didn't I run—but they stuck to me, an no more could I run away from the varmints than I could run away from myself; an the first I know'd I tumbled into a ditch, an about two feet or water, and I thinks I now honies I'll come the St. Patrick over ye, who jist give the likes of some spalpeens a little howly wather in ould Ireland. So I ducks me head under the wather and jist hid it there till I lost kilt myself, and intirely kilt every mother's son of the humbirds; bad luck to em.

Pat ended his story with a deep drawn sigh, and put him to the work of his old town employer.

ANOTHER MYSTERIOUS AFFAIR.—On the 4th inst., a wealthy dentist of Newark, N. J. took his family, together with that of another gentleman, also belonging to Newark, on a month's excursion in a yacht purchased for that purpose. Before they had been gone long, one of the party, said to be a domestic in the family, died, and the yacht returned. The doctor had the body buried in the sand on the shore. Since then he has had the body disinterred, for decent burial, as he alleges, but appearances indicate that there is something wrong about the matter. The Newark authorities are investigating the matter.—New London Star.

TO WHITEN LIPSEN TURNED YELLOW.—Cut up a pound of fine white soap into a gallon of milk, and hang it over a fire in a wash-kettle. When the soap has entirely melted, put in the lipsen and boil it half an hour. Then take it out; have ready a lather of soap and warm water; wash the lipsen in it, and then rinse it through two cold waters, with a very little blue at the last.

How common the exclamation: What a beautiful head of hair has that child! Yes, and would parents wish to preserve such in its original attractions, tell them to use, daily, Champlin's Xylophlorium or Hair Invigorator and Restorative. Always on hand at R. J. Taylor's.

The Broadway, New York, Storekeepers and property holders have formed an organization entitled the Broadway association, the object of which is to thoroughly clean Broadway every night. The work will cost \$500 per week, of which the city now pays \$150.

Professor Park, of Andover, being at Plymouth in warm weather, was lodged in a bed that resembled Pekin in being more populous than comfortable, and he remarked in the morning that he never before knew what was meant by "five geese feathers."

The Ohio wool crop is estimated to exceed that of last year by 3,000,000 pounds, sold at 40 to 60 cents per pound according to quality. Ohio is the leading "wool" State in the Union.

"GLORY TO GOD IN THE HIGHEST, ON EARTH, PEACE, GOOD WILL TOWARDS MEN." These words are to be the first message transmitted over the Atlantic Telegraph.

There have been 55,676 persons altogether buried in Greenwood Cemetery, near New York, since its opening. It is indeed a "City of the dead."

Holloways Ointment and Pills.—Impurities of the blood are often developed in disgusting eruptions, ulcers, tumors, scrofulous sores, boils, and other external affections. For all the distressing and dangerous complaints, Holloway's Ointment is literally a healing balsam. It neutralizes the malarious morbi, or seeds of diseases in the exterior secretions, and dispels the inflammation. Nature does the rest. The experience of every human being who has tested the efficacy of the Ointment is the same. It has never failed. When the internal organs are alone affected, as in liver complaint, dyspepsia, and irregularities of the bowels, a few doses of the pills afford certain and permanent relief.

"Astich in time oft saves nine
Was sung in ages fled,
A hair that is gray if checked to-day,
Will save a hoary head,
Then haste, oh haste, nor moment waste
I'll act just like a charm,
Tis glorious stuff, this is no puff,
Mason's Hair Balm.

READ! READ! READ!—Ye afflicted read the following Certificate of cure of over 20 years' standing:
H. T. HERRMANN—Dear Sir:—I have been troubled with an affection of the bladder and kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine.
I am truly yours,
Lewistown, Pa., Jan. 28, 1887.
Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:
Hon. Wm. Bigler, ex-Governor, Pennsylvania.
Hon. Thos. B. Florence, Philadelphia.
Hon. J. C. Knox, Judge, Tingo Co., Pa.
Hon. J. S. Black, Judge, Philadelphia.
Hon. D. H. Porter, ex-Governor, Pennsylvania.
Hon. Ellis Lewis, Judge, Philadelphia.
Hon. R. C. Grier, Judge U. S. Court.
Hon. G. W. Woodward, Judge, Philadelphia.
Hon. W. A. Porter, City Solicitor, Philadelphia.
Hon. John Bigler, ex-Governor, California.
Hon. P. Banks, Auditor General, Washington, D. C.
And many others, if necessary. jv31

OFFICES FOR RENT.—Four or five offices in Narragansett Buildings, corner of Church and Thames sts. They are suitable for lawyers, physicians, Architects, Artists, Milliners, Music Teachers, &c. They are airy, light, well ventilated, gas pipe in, with a wide entrance, and easy stairs, from Church street; will be let for the summer, year, or term of years. Apply to
HAZARD & CASWELL,
Or on the premises.

SPECIAL NOTICES.

HAZARD & CASWELL,
Druggists and Pharmacutists,
132 Thames Street corner of Church Street,
And 12 Washington Square.
jy22—4.

Corn extracted without pain, by N. T. KRINSON, Chiropractor. Persons leaving orders at Robert H. Carr's, Thames Street, Newport, will be waited upon at their residences.
Permanently located at 157 Washington st., Boston, since 1810. 1wpd a14

SOMETHING NEW EVERY WEEK.
Testimony in favor of Prof. O. J. WOOD'S Hair Restorative Voluntary Certificates, of which one will be published every week.
No. 2.

ANN ARBOR, November 5, 1886.
Prof. O. J. Wood.—Dear Sir:—I had heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery, and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your restorative in my family.—First by my good wife, whose hair had become very thin and entirely bald, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful restorative influence upon the head and mind. Others of my family and friends, are using your Restorative, with the happiest effects; therefore, my acknowledgments in reference to its efficacy and value are entirely renewed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age), to original color and beauty, and by all young persons who would have their hair beautiful and glossy.
Very truly and gratefully yours,
a15 HON. SOLOMON MANN.

Beware of articles purporting to produce "Results similar," as they are only abortive attempts to palm off a worthless article on the popularity of this, under a different name!
O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y. (in the great N. Y. Wire Railing Establishment) and 114 Market street, St. Louis, Mo.
Sold by HAZARD & CASWELL, and all good Druggists. aug6

ALPINE AIR BALM
FOR
Restoring Gray Hair to its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, itching and all diseases of the scalp. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the Hair a natural color, but sides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color, and does not give the Hair a natural color, but sides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color, and does not give the Hair a natural color, but sides being troublesome to use. This Balm is not a Dye. USE THE AMERICAN VEGETABLE
HAIR CURLING COMPOUND,
For Curling and Beautifying the Hair and Whiskers.

ALL who wish to improve the health and growth of the hair and Whiskers, should not be without this compound. It has been fully tested to be the best article now in use. It gives a black and glossy appearance, and after the first application, will curl the hair in beautiful ringlets.

For gentlemen's Whiskers, nothing can be better for curling and making them thick and glossy. As this article is purely vegetable, it will not injure the hair, but will remove the unnatural dryness and harshness of the hair, which precedes its loss, and will increase its growth and give it a healthy and luxuriant brilliancy.

LISTEN TO THE PRESS.

The public are to be assured that this is no imposition, but that the article is full of what is claimed, and that the article will be very soon the most popular compound manufactured. There is no gum or acids used in this preparation, therefore persons will not fear to use it freely, and as often as they wish, as its whole tendency is to enliven, and give life and strength to the hair.

Many are the testimonials in its favor, and it must be tried to be appreciated. Those wishing a beautiful head of hair, can have it by using the Curling Compound, which is put up in a nice box, richly labeled on four sides. Price \$1.

For the Toilet and Nursery, use the Perfumed Pearl Powder! put up in neat paper boxes. This article is Purely Vegetable, and will not injure the skin; used in summer it is very cooling to the skin and causes the complexion to become pure and white. This article is admirable for the Nursery, as it is exceedingly fine and light to the touch. Ladies try it, and you will exclaim as many others have done, "It is the best I ever saw." Price only 12-2 cents per box.

For the Skin and Complexion, use Dr. Le BARON'S Lily Cream. This article is composed of the most soothing substances known in the Vegetable Kingdom, and as it contains no poisonous or injurious materials, it can be used at all times and with entire safety, even upon the most delicate skin. Price only 25 cents.

See that you get the Lily Cream.

DR. SMITH,
OF PHILADELPHIA,
THE INVENTOR OF SMITH'S GENUINE ELECTRIC OIL, the great cure for Rheumatism, and all pains, will be at the Ocean House, and the City Hotel, Providence, a few days, where he desires to see all the afflicted immediately.

IF THESE THINGS BE SO,
Then Indeed
ARE ALL INTERESTED!!!

Ask Hon. John A. Poor, Portland, what it did on a Burn in Two Hours!—Ask Miss Fenn, Steamer "Lexington," what it did for her in One Day!

NEVER HAVE DEALERS had their prejudices so fully overcome by irrefragable, overwhelming proofs.

Dr. Wm. G. Bennett, of Fall River, says: "Dr. Smith, Philadelphia—We have sold a large quantity of your 'Electric Oil' because it is a Good Article. Send me 12 dozen small, 6 dozen medium, and 6 doz large size. Respectfully yours,
"WM. G. BENNETT."

WEEKS & POTTER, eminent wholesale druggists, Boston, (who have sold \$3000 worth in three months, and had to be out of it part of the winter, on account of the deep snow,) say:—
"Dr. Smith, Philadelphia—We have sold a large quantity of your 'Electric Oil' because it is a Good Article. Send me 12 dozen small, 6 dozen medium, and 6 doz large size. Respectfully yours,
"WM. G. BENNETT."

MEDICINES.

"Buy Me and I'll Do You Good."
NOW is the time to use the great Spring & Summer Medicine—DR. LANGLEY'S ROOT AND HERB BITTERS, composed of Sweet Sassafras, Yellow Duck, Thoroughwort, Pickering Ash, Rubarbar, Mandrake, Dandelion, and Wintergreen—so combined as to act directly upon the cause of disease and to remove it. It is the best remedy in the world for Jaundice and Liver Complaint in all their forms, Dyspepsia, Costiveness, Humors of the Blood and skin, Piles, Indigestion, Headache, Bizziness, heartburn or Acid stomach, Languor, Weakness, Loss of Appetite, Debility, Bilious Diseases, Mercurial Affections, and all Impurities of the blood, no matter what the cause may be.

They are pleasant to take, useful at all times, and sure to do you good. They cleanse the bowels, purify the blood, heal, strengthen, regulate, build up, and keep in order the whole system. Everybody should use them. Nearly 600,000 bottles were used last year, proving it the most popular ever known.

Price only 25 and 37 1-2 cents per bottle.— Depot, 49 Union-Street, Boston. Sold by all dealers in medicine everywhere. a13—lm

THE GUARANTEE COMPANY

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognac Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is

without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality among the soldiers from cholera and similar diseases has been diminished.

This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite and increases

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.

DR. GEO. PIERCE'S
INDIAN RESTORATIVE BITTERS.
A GREAT REMEDY FOR
FEVERS, DYSPEPSIA, HEADACHE, BOWEL
COMPLAINTS, PAIN IN THE STOMACH,
COSTIVENESS, JAUNDICE, LIVER COM-

PLAINT AND ALL BILIOUS DIFFICULTIES.

THIS MEDICINE, by the uniform testimony of a great number of intelligent and perfectly credible certificates, is proved to be

THE BEST CATHARTIC

that has yet been introduced to the public. It is active and powerful, but easy in its operation—a full dose operating in three or four hours, usually *without any pain*, and, unlike other cathartics, it does not lax the bowels.

Many persons suffer from JAUNDICE—many have an excess of BILIOUS ACTIOX in the SPRING OF THE YEAR—and are debilitated in consequence. For all this class of diseases this is *A Sovereign Remedy*. Price 60 cents. Sold by H. H. Young, wholesale and retail agent for Newport, cor of Parade and Thames street. m23
